PUBLISHED BY THE OPHTHALMIC PUBLISHING COMPANY

640 South Kingshighway, Saint Louis, Missouri

PLATES IN VOLUME 20, 1937

	Page
Plates 1 and 2. Sudden occlusion of retinal arteries, Arthur J. Bedell, each having four figures	237
Plate 3. Leiomyoma of the iris, Albert D. Frost	347
<p>Fig. 1 (color). The appearance of the left eye, showing the extent of the tumor and ectropion of the uvea.</p> <p>Fig. 2. The tumor tissue infiltrating the iris stroma, with greatest thickness in the sphincter area.</p>	
Plate 4. A study of the communication and direction of flow between cerebrospinal fluid and optic discs in the rat, J. Q. Griffith, Jr., W. A. Jeffers, A. G. Fewell, and W. E. Fry	457
<p>Fig. 3. Photomicrograph of somewhat diagonally cut section of optic nerve, sheath, and adjacent connective tissue, showing thorotrast in the subarachnoid space of the nerve. The section is near the anterior extremity of the sheath.</p> <p>Fig. 4. Photomicrograph under higher power of connective tissue adjacent to the optic disc but external to the dural sheath of the nerve, showing thorotrast within mononuclear cells.</p>	
Plate 5 (color). Staphylococcus conjunctivitis, James H. Allen	985
<p>Fig. 1. Rabbit's eye six hours after instillation of one drop of staphylococcus toxin.</p> <p>Fig. 2. Rabbit's cornea stained with fluorescein after ten drops of staphylococcus toxin.</p> <p>Fig. 3. Right eye after instillation of one drop of staphylococcus toxin, t.i.d.; left eye after instillation of two drops of toxin-antitoxin, t.i.d.</p>

SUBJECT INDEX

Compiled by EMMA S. BUSS

Explanation: Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

- Abducens, (1276).
hereditary paralysis of, **396**.
transitory paresis, in malaria, (436).
after mastoidectomy, (1276).
- Abscess, brain, (547).
blindness from, (547).
of cornea, tuberculous, (666).
of optic nerve, (671).
of orbit, **61**, (229), (548), (549).
of sclera, (441).
- Abstracts—
1. General methods of diagnosis, (206), (429), (650), (856), (1065), (1265).
 2. Therapeutics and operations, (210), (431), (653), (857), (1066), (1267).
 3. Physiologic optics, refraction, and color vision, (213), (434), (655), (858), (1070), (1271).
 4. Ocular movements, (216), (319), (436), (658), (859), (1073), (1275).
 5. Conjunctiva, (84), (218), (319), (438), (659), (861), (1074), (1277).
 6. Cornea and sclera, (85), (220), (322), (440), (539), (664), (865), (960), (1076), (1282).
 7. Uveal tract, sympathetic disease, and aqueous humor, (88), (222), (324), (442), (541), (666), (756), (867), (960), (1081), (1164), (1288).
 8. Glaucoma and ocular tension, (90), (223), (325), (443), (543), (667), (756), (870), (961), (1082), (1165).
 9. Crystalline lens, (93), (224), (327), (444), (544), (667), (757), (872), (962), (1083), (1167).
 10. Retina and vitreous, (95), (225), (329), (446), (545), (669), (758), (873), (964), (1084), (1169).
 11. Optic nerve and toxic amblyopias, (100), (227), (333), (451), (546), (671), (761), (876), (965), (1085), (1172).
 12. Visual tracts and centers, (103), (228), (334), (453), (547), (671), (761), (877), (967), (1174).
 13. Eyeball and orbit, (104), (228), (335), (547), (761), (968), (1175).
 14. Eyelids and lacrimal apparatus, (106), (230), (336), (551), (763), (970), (1176).
 15. Tumors, (109), (231), (338), (553), (765), (972), (1179).
 16. Injuries, (110), (232), (339), (555), (768), (975), (1181).
 17. Systemic diseases and parasites, (112), (233), (340), (557), (770), (978), (1183).
 18. Hygiene, sociology, education, and history, (114), (234), (341), (559), (772), (981), (1184).
 19. Anatomy, embryology, and comparative ophthalmology, (116), (342), (562), (775), (983).
- Accessory nasal sinuses, see Nasal accessory sinuses.
- Accident insurance, (116).
and see Compensation.
- Accommodation, dynamic, avoidance of, **469**.
mechanism of, (858).
and reflex pathways in teleosts, (657).
relation of ocular muscles to, 1147.
vitreous in, (213).
- Acetylcholine, effect of, on retrobulbar neuritis, (966).
- Acne, rosacea, of cornea, (324), (540), (1285).
ocular signs in, (90).
- Actinomycosis of conjunctiva, (219).
- Adaptation, dark, binocular summation with, (1072), (1271), (1274).
as a clinical test, (857), (1065), (1272).
of cones, (1275).
after ocular injury, etc., (975).
in optic neuritis and choked disc, (967).
in oxygen deficiency, (447).
tests of, with Tscherning photometric lenses, (651).
and flicker in electric response, (214).
light, and speed of recognition, (1070).
- Adaptometer, (208), (429), (1266).
- Adenoma, ciliary, (222).
of orbit, (231).
pituitary, visual studies in, (671).
- Adie's disease, (961).
- Adrenalin chloride, one-percent solution, **504**.
as substitute for suprarenin products, (1268).
ionization, (1268).
and see Epinephrine.
- Afterimage, 419.
erect, enlargement of, in emmetropic eye, (1273).
negative, (1070).
test, and squint, (859).
- Albertotti, Giuseppe, 1063.
- Albino, hair-colors, (1266).
ocular disturbance in, (860).
- Alcohol, amblyopia, (451).
injections for ocular pain, (1269), (1271).
- Allbut, Sir Clifford, (981).
- Allergy, ocular disease due to, (107), (338), (559), 948, (1079).
conjunctivitis and iritis, (664), (1075).
ocular reactions to, (772), (981).
ophthalmology and, 832.
retinal, (875).
treatment, avoidance of shock in, (321).
tuberculous, (559).
experimental, of choroid, 412.
- Alopecia, etc., in uveitis, (88), (542).
- Amaurosis, lead, (228).
after typhus fever, (547).
- Amblyopia, strabismic, (217), (1277).
toxic, alcohol, (101), (451).
arsenicals, pentavalent, (103).
dimethyl sulphate, **700**.
mescal, (101).
quinine, (101), (102), (452).
tobacco, (452).
and see Abstracts, section eleven.

Glaucoma, (*continued*).

chronic, simple, disclosed by homatropine refraction, 749.

early, (961).

effect of Doria on, (1166).

exfoliation of anterior lens capsule in, (91).

tension after paracentesis in, (756).

clinic, see Clinics.

diabetic, (93).

diagnosis of, anterior-chamber puncture in, (443).

rôle of tonometry in various forms of, (1082).

diastolic pressure and, 724.

hemorrhagic, anterior, (443).

in Werlhof's disease, (325).

inflammatory, (92).

intermittent, (443).

iris atrophy with, (88).

juvenile, (325).

after malaria, (340).

and nevus flammeus, (92), (962).

oculocardiac reflex in, (1082).

operations, 571, 1163.

choice of, (544).

cyclodialysis, (326), (327), (543), (1166).

iridectomy with, (224).

permanent results of, (1165).

spatula forceps for, (223), (325).

with sclerectomy, (327).

goniotomy (trabeculotomy), (870), 1237.

iridectomy, gonioscopy after, 731.

trapdoor, (756).

Vogt's cataract after, (225).

iridencleisis, (756).

Lundsgaard modification of Holth's, 728.

permeability of cicatrix after, (543).

results of, 69.

on unoperated-on eye, (327).

sclerectomy, posterior, (871).

sclerotomy, posterior, (91).

trephining, introduction of magnesium through, (90).

scissors, (1269).

septic endophthalmitis from, (667).

vision and central fields after, 1250.

provocative tests of, (443).

retrobulbar injections of alcohol for, (1271).

secondary, to cataract operation, (95), (223), 525.

to rupture of lens capsule, 820.

to spherophakia, 1042.

sedimentation rate in, (871).

staphyloma posticum verum in, (326).

tension, intraocular, change in, with circulation of aqueous in ciliary body, 627.

consensual reaction in, (223).

with external pressure, (223).

clinical measurement of, (543), 985.

effect of, drugs on, (92).

injury to fellow eye on, (975).

tenotomy of recti muscles on, (544).

hypertension, (92), (757).

Glaucoma,

tension,

hypertension, (*continued*).

in enucleated eye, (92).

hypotension, (327).

intracranial and, (91), (962).

after paracentesis of anterior chamber, (756).

pathologic mechanism of, (326).

in pregnancy, (871).

and vascular pressure in eye, (325), (444).

and see Abstracts, section eight.

traumatic, see Injuries.

treatment of, medical, (92).

calcium-magnesium, (91).

diathermy, (326).

Doria, (1166).

epinephrin bitartrate, (432).

concentrated, 497, 504, (870).

gravidan, (962).

neosynephrine, 170, (432).

roentgen, (91).

syntropan, (1066).

vascular state in, (443).

Glimmer racket, 200.

Glioma, of chiasm, (765), (973).

intraocular, (339).

of optic nerve, (768), (973).

of retina, 525.

radium for, 187, (974).

roentgen-ray treatment, (553), (554), (972), (1180).

transfer of cells from eye to other, (554).

Glucose, in aqueous, after cervical sympathectomy, (442).

Glutathione, in lens, (445), (1169).

in organs after induced cataract, (1168).

Glycemia, (1168).

Glvcoregulation, (756).

Goiter, exophthalmic, see Thyroid.

Gold, ball implant, 835, (969).

therapy of iridocyclitis, (1289).

Goldfeder operation, see Trachoma.

Gonioscopy, 731, (870).

illuminating device for, 943.

Goniotomy (trabeculotomy). see Glaucoma.

Gonorrheal ophthalmia, see Ophthalmia.

Gorky Vocational School for the Blind, (342).

Gout, ocular involvement from, (234), (1183).

Graefe, see Von Graefe.

Grafts for ocular repair, (105), (107), (220), 897, 942.

Gravidan therapy, (962), (1069).

Green patch, see Fundus.

distribution of, in Syria, (1184).
effect of fever on, (439).
endemic, in Egypt, (84), (439).
in Sweden, (114).
entropion from, (551).
eosinophilia in conjunctival secretion in, (321).
examination of, with loupe, (1281).
experimental research of, (862), (1074).
familial form of, (438).
follicles, corneal ulcer after expression of, (321).
healing of, (863).
hematology of, (1277).
infectivity of, 353, 360, (439), (664), 890, (1074).

Explanation: Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

- Trachoma, (*continued*).
 inoculation of, intraocular, (1280).
 specificity of nodules, (218), (219).
 and lacrimal passages, (1176).
 leukocytic formula in, (863).
 in Madeira, (1186).
 in Palestine, (559).
 pathology of, advanced, (1074).
 constitutional side in, and in treatment of, (1075).
 in São Paulo, (559), (773).
 school in the spread of, (234).
 and serpent ulcer, (1286).
 stage I, (322).
 and trachomatous keratitis, (1186).
 treatment, (660), (1279).
 antileprol injections, (863).
 arrest of secretions, (1278).
 autohemotherapy, (1075).
 benzyl cinnamate, (219), (1279).
 brilliant green, (661).
 of children, (341), (342), (863), (864).
 expression, repeated, (662).
 emollator for, (1076).
 by general practitioner, (342), (864).
 in infants, (865).
 quinine, (660), (663).
 surgical, (439).
 trachocid, (320).
 in Tunisian troops, (560).
 unilateral, (440).
 lacrimal and traumatic factors in, (863).
 virus, (1280).
 carrier, (1277).
 inoculation of Harder's gland with, (971).
 and see under infectivity.
 visual loss from, (1185).
 Transilluminator, (651).
 battery for, (655).
 Transplantation, see Cornea.
 Trephine, electro, for corneal transplants, (540).
 Trial case, see Spectacle lenses.
 Trichiasis operations, (107), (109), (971).
 marginoplastic, (763).
 Trichloroacetic acid for iris prolapse, 131.
 for removal of lid moles, (108).
 Tryparsamide therapy, ocular complications from, 45.
 Tryptopane, in constitutional eye disease, (558).
 test, (210).
 Tscherning photometric lenses, (651).
 Tuberculin, diagnostic, 412.
 reaction of bulbar conjunctiva to, (661).
 therapeutic, in corneal affections, (866).
 Kressling's, (857).
 in ocular tuberculosis, 306, (1069).
 Tuberculosis, of anterior segment, (979).
 of choroid, miliary, (869).
 experimental, allergic, 412.
 clinic, (115).
 of conjunctiva, (218), (220), (319).
 coincident with phlyctenules, (85).
 ulcer, (661).
 of cornea, abscess, (666).
 treatment with tuberculin, (866).
 Tuberculosis,
 of cornea, (*continued*).
 ulcer, (661).
 iridociliary, 1256.
 absorption of nodes under rest, 949.
 and pulmonary, (88).
 of lacrimal glands, (971).
